“ My deepest and sincere sympathy goes out to Angela, Melany and the entire Golson family. Words cannot even begin to express what an extraordinary man James was. In working with him in the classroom for 13 years, I learned many things about life. The students that we taught were BLESSED to have James as a educator, mentor and all around parental figure. There is a crack in my heart from James' passing, but he will be with me everyday as I continue to follow in his footsteps and work with students that just need someone.
